

## Invitation to BioInvent's R&D Day in Stockholm on December 8, 2022

**Lund, Sweden, November 23, 2022** – BioInvent International AB ("BioInvent") (Nasdaq Stockholm: BINV), a biotech company focused on the discovery and development of novel and first-in-class immuno-modulatory antibodies for cancer immunotherapy, invites investors, analysts and media to an R&D Day in Stockholm on Thursday December 8, 2022.

The program will start at 2:00 pm CET, with registration from 1:00 pm CET and will end with networking at around 4:30 pm CET. The event will take place at Epicenter, entrance at Regeringsgatan 61A in Stockholm. Moderator for the day is Lars Frick, journalist at Börsveckan.

The R&D Day will feature KOL Dr Sean Lim from University Hospital Southampton, who will discuss the current treatment landscape and unmet medical need in treating patients with T cell lymphomas. Representatives from BioInvent's management team will provide an update on BioInvent's broad clinical pipeline with five programs in ongoing clinical development.

### Agenda BioInvent R&D Day December 8, 2022

2:00-2:10 pm	Welcome & introduction	Martin Welschhof, CEO
2:10-3:00 pm	FcyRIIB clinical programs BI-1206 and BI-1607	Björn Frendeus, CSO Andres McAllister, CMO
Break		
3:15-3:30 pm	The oncolytic drug candidate BT-001 (anti-CTLA-4)	Björn Frendeus, CSO Andres McAllister, CMO
3:30-3:45 pm	BI-1808 (anti-TNFR2)	Björn Frendeus, CSO Andres McAllister, CMO
3:45-4:05 pm	"Current treatment landscape and unmet medical need in T cell lymphoma"	KOL Dr Sean Lim
4:05-4:25 pm	Fire-side chat/Q&A session with presenters, led by moderator Lars Frick	
4:30 pm	Networking, food & drinks	

The event will be conducted in English and there will be a simultaneous live webcast for those unable to attend in person. The webcast, with presentation slides, will be available to view on BioInvent's website [www.bioinvent.com](http://www.bioinvent.com) and a recording will be made available shortly after the event.

If you wish to register to participate in the event on site, please send an email to [anmalan@bioinvent.com](mailto:anmalan@bioinvent.com) with the subject "R&D Dec 8" (**RSVP December 2**).

**Dr Sean Lim** is an Associate Professor and Honorary Consultant in Hematological Oncology at University Hospital Southampton, United Kingdom. Dr Lim is a practicing clinician specializing in lymph node cancers and she also leads a scientific research group focusing on the development of new anti-cancer drugs, in particular novel therapeutic monoclonal antibodies.

#### **About BioInvent**

BioInvent International AB (Nasdaq Stockholm: BINV) is a clinical-stage biotech company that discovers and develops novel and first-in-class immuno-modulatory antibodies for cancer therapy, with currently four drug candidates in five ongoing clinical programs in Phase 1/2 trials for the treatment of hematological cancer and solid tumors, respectively. The Company's validated, proprietary F.I.R.S.T™ technology platform simultaneously identifies both targets and the antibodies that bind to them, generating many promising new drug candidates to fuel the Company's own clinical development pipeline or for additional licensing and partnering.

The Company generates revenues from research collaborations and license agreements with multiple top-tier pharmaceutical companies, as well as from producing antibodies for third parties in the Company's fully integrated manufacturing unit. More information is available at [www.bioinvent.com](http://www.bioinvent.com). Follow on Twitter: @BioInvent.
