

Ovzon Receives Supplementary Order from Existing NATO Customer of 39 MSEK (3.9 MUSD)

Ovzon has received a supplementary order from its newest NATO customer for additional mobile satellite terminals which will operate on the existing satellite service. The order value amounts to 39 MSEK (3.9 MUSD), and deliveries will be carried out during the fourth quarter 2026 and the first quarter 2027.

"We are honored to deepen our relationship with our newest NATO customer that we welcomed in July 2026. Sovereign control through end-to-end systems over space-based infrastructure continues to be prioritized as the operational necessity. We look forward to supporting the customer with high-performing and resilient mobile satellite communication through the continued expansion of their use of our advanced satellite communications platform," says Per Norén, CEO of Ovzon.
