
Intellego Delivers UV Dosimeters Worth EUR 2 Million to Partner in Asia

As in line with Intellego Technologies AB (publ) previously communicated growth, Intellego is in the process of making a major delivery of UV dosimeters to Asia worth EUR 2 million. The customer, with an annual net revenue of approximately USD 300 million, is a long-standing partner, and the product is a newly developed UV dosimeter specifically designed to meet the new UV disinfection regulations in China.

This delivery is a good example of receivables that can be secured by credit thanks to Intellego's new banking and financing network.

About Us

Intellego Technologies develops and manufactures color indicators that show the effect of irradiation with, among other things, invisible ultraviolet light, UV light. Color indicators are used globally in, for example, the disinfection industry, the sunscreen industry, and the manufacturing industry. Intellego's indicators have been developed from the company's patented photochromic ink, which can be adapted to different wavelengths of light and various application areas across a range of different industries. Intellego Technologies was founded in 2011, is headquartered in Stockholm, and is listed on the Nasdaq First North Growth Market.

The company's Certified Adviser on the Nasdaq First North Growth Market Stockholm is Carnegie Investment Bank AB (publ).
