Intea has carried out a directed issue of 16 million D#shares

Intea Fastigheter AB (publ) ("Intea" or the "Company") has, in accordance with what the Company indicated in a press release earlier today, resolved on directed share issue totalling 16,000,000 million D-shares at a subscription price of 31.50 SEK per D-share (the "**Share Issue**"). The subscription price represents a discount of 16 percent to the closing price for the D-share on Nasdaq Stockholm on 26 November 2025 (SEK 37.50). A number of Swedish and international institutional investors, including Atlas Copcos-gruppens gemensamma pensionsstiftelse, the Fourth Swedish National Pension Fund and Clearance Capital Limited, participated in the Share Issue. In addition, a number of non-institutional investors participated in the Share Issue. Through the Share Issue, Intea raises a total of SEK 500 million before transaction related costs.

The Share Issue

The Share Issue, which in total comprises 16,000,000 Class D-shares, is being carried out with deviation from the shareholders' pre-emptive rights, partly based on the authorisation granted to the board of directors at the annual general meeting held on 5 May 2025 ("**Tranche 1**") comprising 9,730,622 D-shares, partly subject to subsequent approval at an extraordinary general meeting ("**Tranche 2**") comprising 5,349,378 D-shares, and partly subject to subsequent approval at the same extraordinary general meeting with respect to subscriber included in the category covered by Chapter 16 of the Swedish Companies Act (2005:551) (Sw. *Leo-lagen*) ("**Tranche 3**") comprising 920,000 D-shares. The Company's board member Henrik Lindekrantz has committed to subscribe for 920,000 shares in Tranche 3. Henrik Lindekrantz's participation in the Share Issue will be subject to Chapter 16 of the Swedish Companies Act (2005:551), which requires that a valid resolution be approved by at least nine-tenths of both the votes cast and the shares represented at the extraordinary general meeting. Tranche 1, Tranche 2 and Tranche 3 are independent of, and not conditional upon, each other.

The subscription price of SEK 31.50 per D-share and 16,000,000 new D-shares have been determined through an accelerated book building procedure directed towards Swedish and international, primarily institutional, investors.

Background and reasons and use of proceeds

Since its IPO in December last year, Intea has completed acquisitions totalling approximately SEK 2.2 billion and added new projects in the judicial sector with an estimated total investment amount of approximately SEK 10.9 billion. In total, Intea's project volume as per today is estimated to approximately SEK 12.6 billion, of which approximately SEK 1.4 billion has been invested and the remaining part will be invested in projects that are estimated to be completed during the years 2025 – 2030.

Intea sees further interesting business opportunities that would also contribute to the Company's financial targets of annual growth in long-term net asset value and management profit per A- and B-share, while at the same time the Company must consider its financial risk limitations and credit rating for the purpose of enabling effective external borrowing that remains beneficial to both Intea and its shareholders. The proceeds from the Share Issue are intended to be used to pursue business opportunities in the current market and at the same time maintain a flexible and balanced capital structure.

The number of outstanding D-shares increases significantly through the Share Issue, which is expected to improve the liquidity of the D-shares and broaden the shareholder base for the D-shares. This is considered beneficial not only for existing and new owners of D-shares, but also for owners of A- and B-shares and for the Company.

Deviation from the shareholders' pre-emptive rights

Prior to the Share Issue, the Company's board of directors has made an overall assessment and carefully considered the possibility of raising capital through a new share issue with pre-emptive rights for the Company's shareholders. The board of directors considers the reasons for deviating from the shareholders' pre-emptive rights are (i) to diversify and strengthen the Company's shareholder base for the D-shares primarily with new institutional investors and improve the liquidity of the Company's D-shares, (ii) that a rights issue, compared to a directed share issue, would take longer time to carry out which, considering the terms of the Company's D-shares relative to its A- and B-shares, would entail an exposure to potential market volatility with a higher potential risk of a material negative impact on the share price, (iii) a directed share issue can be carried out at a lower cost and with less complexity compared with a rights issue, which, given that the Company's D-shares are considered particularly suitable for a certain category of investors, would be disproportionately burdensome and entail additional costs in the form of time-consuming processes for the Company, and (iv) further strengthen the Company's flexible and balanced capital structure to enable the Company to actively pursue investment opportunities in the current market. In light of the above, the board of directors has made the assessment that a directed share issue with deviation from shareholders' pre-emptive rights is the most favourable alternative for the Company, creates value for the Company, and is in the best interest of the Company's shareholders.

Since the subscription price in the Share Issue has been determined through an accelerated book building procedure, it is the board of directors' assessment that the market value of the subscription price has been ensured by reflecting prevailing market conditions and investor demand.

Extraordinary general meeting

The board of directors' resolution regarding Tranche 2 and Tranche 3 is conditional upon approval by an extraordinary general meeting intended to be held on 23 December 2025. Notice to the extraordinary general meeting will be published separately.

Commitments to vote in favor of the Share Issue at the extraordinary general meeting have been obtained from shareholders who, with respect to Tranche 2, together represent 22.3 per cent of the total number of shares and 35.4 per cent of the total voting rights in the Company after the additional D-shares in Tranche 1 have been issued, and from shareholders who, with respect to Tranche 3, together represent 18.9 per cent of the total number of shares and 24.2 per cent of the total voting rights in the Company.[1] In addition, a shareholder[2] who represents 8.4 per cent of the total number of shares and 7.0 per cent of the total voting rights in the Company, after the additional D-shares in Tranche 1 have been issued, has expressed their support for the Share Issue and stated that they intend to vote in favor of the Share Issue at the extraordinary general meeting.

Share capital and number of shares

The Share Issue means that the total number of shares in the Company increases by 16,000,000, from 273,306,226 to 289,306,226 shares, divided into 6,390,000 A-shares, 207,843,936 B-shares and 75,072,290 D-shares. The total number of votes increases by 1,600,000, from 33,081,623 votes to 34,681,623 votes. The share capital increases by approximately SEK 1,777,778, from approximately SEK 30,367,358 to approximately SEK 32,145,136. The Share Issue entails a dilution effect of approximately 5.5 percent based on the total number of shares and approximately 4.6 percent based on the total number of votes in the Company after the Share Issue.

Lock-up

The Company has undertaken to, during a period of 180 calendar days after the settlement date of the Share Issue, not without the prior consent of the Joint Bookrunners, propose or issue additional D-shares, with certain exceptions, for example as consideration shares in connection with acquisitions.

Advisors

ABG Sundal Collier and DNB Carnegie are Joint Bookrunners in connection with the Share Issue. Advokatfirman Vinge is acting as legal advisor to the Company.
