

OPTICEPT EXPANDS COLLABORATION WITH A BRAZILIAN FORESTRY COMPANY

OptiCept Technologies expands the collaboration with Aperam BioEnergia LTDA ("Aperam") in Brazil through industrial treatment of approx. 250,000 cuttings for an order value of EUR 8,750. OptiCept has already an ongoing pilot project with the customer.

In autumn 2022, OptiCept entered into an agreement with Aperam in Brazil and started a pilot project, regarding OptiBoost for the treatment of Eucalyptus cuttings. The goal is to achieve improved rooting and survival in the propagation and production of commercial plants.

Despite the fact that the test period still is ongoing, Aperam now chooses to expand the collaboration. The collaboration expands to the industrial treatment of 250,000 Eucalyptus cuttings with OptiBoost. In this phase, they will treat a variety of high-yielding cuttings that have a low survival rate without treatment.

"This is a strong message for OptiBoost for cuttings. We now get further confirmation that we have identified a great value for the market. We are looking forward to deepening and developing the collaboration with Aperam", says Thomas Lundqvist, CEO, OptiCept Technologies.

About Us

OptiCept Technologies AB (publ) provides the food and plant industry with technological solutions that contribute to a more sustainable world and enable climate-smart economic growth. OptiCept optimizes biological processes - Increased extraction from raw material, extended shelf life, reduced waste, and improved quality (taste, aroma, color, nutritional content) of the final product.

The positive effects of technology increase efficiency for our customers, better products for the consumers, and minimal impact on our environment. Through patented technology in PEF (pulsed electric field) and VI (Vacuum Infusion), the technology opens up new business opportunities for the food and plant industry worldwide. OptiCept's vision is to contribute to a sustainable world by offering efficient green cutting-edge technology that is easy to use in the areas of FoodTech and PlantTech.

The company is located in Lund and the share is traded on the Nasdaq First North Growth Market. Erik Penser Bank is a Certified Adviser and is available at 08-463 80 00 or certifiedadviser@penser.se.
