# Today NCAB presents new financial targets

**NCAB is today hosting a Capital Markets Day that starts at 2:00 p.m.CET. It will take place at NCAB's head office at Löfströms allé 5 in Sundbyberg and can also be followed digitally on https://ncab-group.events.inderes.com/cmd-2026**

NCAB's Board of Directors has set new medium term financial targets. These are:

- Average annual growth in net sales of 15 percent
- Average EBITA margin of 15 percent
- Net debt/EBITDA ratio in the range of 1.5-2
- Distribute available capital, given the level of indebtedness and capital needed for acquisitions or other investments

"We continue to see good opportunities to grow both organically and through acquisitions. Despite a leading market position globally, we have a small market share in the growing world market where we can provide our customers with great benefits. Our growth also enables higher efficiency, which means that we can increase our ambition for our profitability," says *Peter Kruk*, President and CEO of NCAB Group.

"During the Capital Markets Day, we will present the plans for organic growth and acquisitions. The market for PCBs is currently challenging, as is the case for many parts of the electronics industry. We will describe what is happening in the market and how we secure our supply chain to be able to deliver on time and with high quality. We will also elaborate on how we focus on different niches such as Aerospace & Defence and Medical. We will also dive into some customer cases and the company' s development in Asia and North America."

Welcome to listen in!

Participants who follow the event digitally can ask written questions during the webcast. A recording of the webcast will also be available on NCAB's website. https://investors.ncabgroup.com/sv/investerare/kapitalmarknadsdag-2026/
