

## **Acconeer signs distribution agreement with Maxense Innovations for the Taiwanese market**

**The agreement concerns Acconeer's radar sensors along with related modules and evaluation kits (EVK) and is effective immediately with the aim to increase the company's presence on the East Asian market. Maxense Innovations offers distribution and design services to a wide range of industries including consumer electronics, industrial controls and computers.**

Maxense Innovations, established in 2016, is one of the leading PCB integrated services providers in the field. Their experienced engineering team supports their customers through the entire PCB design process including design, production management, logistics and distribution.

"Acconeer's radar products are a great fit for many of the industries we target, and we look forward to bringing it to new and existing customers," says Ethan Chang, CEO Maxense Innovations.

Ted Hansson, CEO Acconeer, comments: "Taiwan is one of the world's largest semiconductor markets, and it feels great to strengthen our presence there together with Maxense Innovations. We are confident that their expertise in delivering high-performance and reliable PCB solutions will accelerate our growth in the region."

### **About Acconeer AB**

With ground-breaking technology, Acconeer has developed a radar sensor that opens a new world of interaction. Acconeer Micro Radar Sensor, with low power consumption, high precision, small size and high robustness, is a 60GHz robust and cost-effective sensor for detection, distance measurement, motion detection and camera-supported applications with low power consumption. Acconeer combines the advantage of low power consumption with highly accurate pulsed radar systems of coherent radar, all integrated into a component with a surface area of only 28 mm<sup>2</sup>. The radar sensor can be included in a range of mobile consumer products, from smartphones to wearables, but also in areas such as robots, drones, the Internet of Things, healthcare, automotive, industrial robots and security and monitoring systems. Acconeer is a semiconductor company and, as a business model, sells hardware to manufacturers of consumer electronics products. Acconeer is listed on Nasdaq First North Growth Market with the ticker code ACCON, Redeye is the company's Certified Advisor (CA). For more information: [www.acconeer.com](http://www.acconeer.com).
