SaveLend Group enters into factoring partnership with Kleer

SaveLend Group AB ("SaveLend Group" or the "Company") has entered into a partnership with Kleer Group AB ("Kleer") to finance invoice purchases on Kleer's platform. The partnership is expected to make a significant contribution to SaveLend's existing factoring business.

The factoring partnership with Kleer strengthens SaveLend Group's offering while also creating value for investors on the SaveLend platform. The agreement will add further volumes of short-term invoice purchases, a type of credit that contributes to both diversification and a steady flow of investment opportunities for investors.

Significant scaling of in-house factoring operations
SaveLend Group's factoring business continues to demonstrate strong growth. Following total factoring volumes of SEK 167.4 million financed during 2025, the financed volume more than doubled in the first half of 2026 alone, reaching SEK 358.7 million. The Company sees strong potential to continue scaling its factoring operations throughout the remainder of 2026.

"The partnership with Kleer strengthens our position in factoring and adds significant new volumes to the platform. For our investors, this means greater diversification through an increased supply of short-term credit opportunities, while supporting our ambition to continue growing within an asset class where we see attractive long-term potential," says Peter Balod, CEO of SaveLend Group.

About Kleer
Kleer is a Finance-as-a-Service company serving consulting firms and SaaS/AI companies in Sweden. It combines an automated accounting and payroll platform with a dedicated team of accounting consultants and payroll specialists. The company helps more than 2,000 businesses streamline their accounting and payroll processes through automation, real-time insights and integrated financial services.
