Permascand receives two orders totaling 130 MSEK from one of the world's largest commodity trading companies

Permascand has received two orders from one of the world's largest commodity trading companies regarding aftermarket services in electrowinning, within the Electrification & Renewables segment. The order value totals approximately SEK 130 million and will be included as order intake in the third quarter of 2023. The orders are expected to be delivered in 2024.

"These orders are further proof that our customer-centric focus is bearing fruit. It is gratifying to continue this well-established cooperation in our growth segment Electrification & Renewables where our mission-critical solutions enable the extraction of metals central to the green energy transition and make the process more sustainable", says Peter Lundström, CEO of Permascand.

The business partnership is well established, and Permascand has historically delivered aftermarket services to the customer's facilities. The customer is one of the world's largest global diversified natural resource companies and a major producer and marketer of more than 60 commodities that advance everyday life.
