

Help Us Improve – Take the Neola Medical Communication Survey 2025

Neola Medical is conducting a short stakeholder survey to evaluate and improve our communication efforts.

We invite you to take a brief, approximately 5-minute survey to share your views on how we communicate across our digital channels, website, news updates, and investor letters. Your feedback will help us better tailor our content to reflect your interests and needs.

The survey is completely anonymous, open for two weeks, and all data is handled in accordance with GDPR.

Take the survey here: [Neola Medical Communication Survey 2025](#)

Thank you for helping us grow and improve!

About Neola Medical

Neola Medical AB (publ) develops an innovative medical technology device for non-invasive, continuous lung monitoring and real-time alerts of potentially life-threatening lung complications in preterm born babies. By enabling instant detection, the technology aims to support earlier intervention, improve clinical decision-making, enhance long-term outcomes, and ultimately contribute to saving lives. The patented, cutting-edge technology was developed at Lund University in Sweden and is based on a spectroscopic method that measures changes in lung volume and oxygen gas concentration. Neola Medical builds on Sweden's longstanding legacy of medical technology innovation and contributions to global health care. Neola Medical was founded in 2016 and is listed on NASDAQ First North Growth Market (ticker: NEOLA). Read more at www.neolamedical.com. The company's Certified Adviser is FNCA Sweden AB.
