

Region Kronoberg has decided to award Ortivus a contract on the delivery of defibrillators

Ortivus has been awarded a contract regarding the supply of equipment to Region Kronoberg's ambulance and hospital operations. The contract refers to the delivery of Ortivus' MobiMed Life, semi-automatic and manual defibrillators. The order value is estimated to 4.9 MSEK and the contract duration is 2 years with a possible extension of another 1+1 years.

We are very pleased to announce that Region Kronoberg has decided to award Ortivus a contract for the supply of defibrillators to the region's pre-hospital and hospital care. The region, that has been Ortivus' customer for a long time, has been using MobiMed Monitor for patient monitoring and MobiMed ePR, electronic patient record, for several years. Through this award, the region expands with MobiMed Life stand-alone defibrillators that can be completely integrated with Ortivus' other systems.

The contract covers 100 units of the Reanibex 300 model to the region's hospital care and 30 units of the Reanibex 500 EMS model to the region's ambulance services. Ortivus has exclusive distribution rights for Reanibex in the Nordics, UK and Ireland.

"We are very happy about this award and the continued trust from Region Kronoberg. We have had good cooperation with the region for many years and with this contract, which concerns MobiMed Life, we can implement a very competitive solution to further strengthen healthcare in Region Kronoberg." Says Stefan Ekblom, Sales Manager Nordic at Ortivus.

The contract will be signed after a period of 10 days from the date of the award, in accordance with the procurement regulations.

About Ortivus

Ortivus develops and commercialises MobiMed, e-health and medical technology solutions for a safer and more efficient healthcare. The company was founded in 1985 and is today a leading provider of mobile digital solutions for prehospital care, worldwide. Ortivus' innovations are based on in-depth expertise in cardiology as well as decades of development together with users and customers. The company's headquarters are located in Danderyd, Stockholm. The company has, since 1998, a wholly owned subsidiary based in the United Kingdom and since 2022, a wholly owned subsidiary based in Denmark.

MobiMed is a modular platform that connects and enable real-time information sharing throughout the prehospital care chain. It is currently used by over 12,000 paramedics in over 2,700 emergency vehicles. The platform, MobiMed, consists of several product modules that are completely integrated but can also be used stand-alone. MobiMed comprises four main solutions: MobiMed Monitor, that measures, monitors and shares patients' vital parameters and ECG in real-time, MobiMed ePR, - an electronic patient record for decision support, collection of patient data and clinical documentation, MobiMed enRoute, - a tool for navigation and case management, and MobiMed Life - a range of stand-alone defibrillators.

MobiMed saves vital seconds and enable healthcare professionals make the right decisions in critical situations. MobiMed also contributes to improved quality of care and saved resources.

Ortivus Class A and Class B shares are listed on the NASDAQ Stockholm Small Cap list.
