

REC Silicon - Request for commencement of a Norwegian investigation process dismissed

Lysaker, Norway - October 15, 2025 - Reference is made to the annual general meeting of REC Silicon ASA ("REC") on 25 June 2025, where a proposal for investigation (norw.: "granskning") was approved by a requisite majority.

Pursuant to the resolution by the general meeting, and as announced in RECs second quarter 2025 presentation, a shareholder request was made in July 2025 to the relevant Norwegian district court for the commencement of an investigation process. The shareholder request for investigation was contested by REC.

The Asker and Bærum District Court today announced that the court has ruled to dismiss the shareholder request for an investigation.
