

Invitation to Hexatronic's Investor Update

Hexatronic will host a digital Investor Update on Thursday, September 11, 2025, welcoming investors, analysts, and media to participate. The purpose is to provide an in-depth view of the Performance Improvement Program that was communicated July 6.

The program aims to improve growth opportunities and strengthening margins within the Fiber Solutions business area. Through cost reductions, productivity improvements, and investments in adjacent growth areas, alongside the FTTH segment, the ambition is to strengthen the conditions for profitable growth in the coming years.

Strategy and status per business area, as well as financial targets per business area will also be presented during the event.

The presentation will start at 10.00 CEST and last at most until 12.00 CEST, including a Q&A session. Among others, Hexatronic's President and CEO Rikard Fröberg and CFO Pernilla Lindén, and those responsible for each business area, will participate.

Participants can register to follow the investor presentation live via this link: <https://hexatronic-group.events.inderes.com/investor-update-2025>

Questions can be asked in writing during the presentation via a web form in the link above.

A recorded version of the digital investor presentation will be available on Hexatronic's website after the event.
