

Upsales ARR growth Q3 2022

Annual recurring revenue (ARR) amounted to 136.3 MSEK at the end of Q3 2022, a growth of 31.6 % in the last 12 months. ARR grew by 7.0 MSEK during the quarter - an intra-quarter growth of 5.4 %. Upsales had 1,800 customers at the end of the quarter.

"The third quarter is typically a bit slower in terms of growth with many customers on vacation. It is therefore extra rewarding to see Upsales delivering yet another record quarter in terms of ARR growth. Demand continues to be high from new and existing customers, and we continue to follow our growth plan."
