

Acconeer signs global franchise agreement with Future Electronics

Acconeer has signed a worldwide franchise deal with Future Electronics, who will provide customers access to Acconeer's unique 60GHz radar solutions. This agreement covers Acconeer's A121 radar sensor and related products, and expands Acconeer's global distribution network. Future Electronics is a global leader in electronics distribution headquartered in Montreal, Canada.

Through this partnership, Future Electronics customers will gain access to Acconeer's patented Pulsed Coherent Radar systems, recognized for their unmatched power consumption, compact size, and high-performance sensing capabilities.

Acconeer's 60GHz millimeter-wave A121 radar solution, along with related modules and evaluation kits, will now be available through Future Electronics. This technology enables precise object detection, distance measurement, and motion sensing, making it ideal for industries such as automotive, IoT, and industrial automation. By expanding its portfolio with Acconeer's products, Future Electronics reaffirms its commitment to offering customers the most advanced solutions to drive innovation in their designs.

"With this agreement in place we further increase our visibility and availability for customers worldwide," said Ted Hansson, CEO of Acconeer. "With their strong global presence and success, Future Electronics is an important addition to our global distributor network."

Established in 2012 from research at Lund University, Acconeer has quickly become a leader in radar sensing technology. Its Pulsed Coherent Radar systems combine extremely low power consumption with remarkable sub-millimeter precision and robust environmental performance. By integrating Acconeer's solutions, Future Electronics continues to empower developers, fostering an environment where employees and customers alike benefit from state-of-the-art electronics innovations.

Future Electronics is dedicated to maintaining a culture of excellence and collaboration, making it an exceptional place to work. This global franchise agreement highlights the company's unwavering focus on delivering breakthrough technologies that help customers succeed in an ever-evolving market.

About Future Electronics

Founded in 1968, Future Electronics is a global leader in the electronic components industry. Future Electronics' award-winning customer service, global supply chain programs and industry-leading engineering design services have made the company a strategic partner of choice. Headquartered in Montreal, Canada, Future Electronics operates in 159 offices across 44 countries with over 5,000 employees. Its worldwide presence powers the company's outstanding service and efficient, comprehensive global supply chain solutions. Future Electronics is globally integrated and supported by one IT infrastructure which provides real-time inventory availability and enables fully integrated operations, sales and marketing services worldwide. In 2024, Future became a WT Microelectronics company, now dual-headquartered in both Montreal, Canada and Taipei City, Taiwan.

Future Electronics' mission is always to Delight the Customer®. For more information visit www.FutureElectronics.com.

About Acconeer AB

With ground-breaking technology, Acconeer has developed a radar sensor that opens a new world of interaction. Acconeer Micro Radar Sensor, with low power consumption, high precision, small size and high robustness, is a 60GHz robust and cost-effective sensor for detection, distance measurement, motion detection and camera-supported applications with low power consumption. Acconeer combines the advantage of low power consumption with highly accurate pulsed radar systems of coherent radar, all integrated into a component with a surface area of only 28 mm². The radar sensor can be included in a range of mobile consumer products, from smartphones to wearables, but also in areas such as robots, drones, the Internet of Things, healthcare, automotive, industrial robots and security and monitoring systems. Acconeer is a semiconductor company and, as a business model, sells hardware to manufacturers of consumer electronics products. Acconeer is listed on Nasdaq First North Growth Market with the ticker code ACCON, Redeye is the company's Certified Advisor (CA). For more information: www.acconeer.com.
