MEDIVIR

Medivir live Investor Update today at Redeye at 11.00

Stockholm, Sweden — Medivir AB (Nasdaq Stockholm: MVIR), a pharmaceutical company focused on developing innovative treatments for cancer in areas of high unmet medical need, announces that the company will provide a live Business Update at Redeye, today November 18, 2025.

CEO Jens Lindberg will provide an update focused on the announced Right's Issue to finance a randomized, controlled two-arm study with 40 patients in each arm. The objective of the study is to show that the Company's drug candidate fostrox in combination with lenvatinib is superior to lenvatinib alone in second-line liver cancer.

The presentation is live broadcasted with a moderated Q&A session and can be followed at the event page, where the replay and the presentations will be available afterwards;
Investor Update: Medivir - Redeye

The presentation will also be available after the meeting on Medivirs website; www.medivir.com.

About Medivir
Medivir develops innovative drugs with a focus on cancer where the unmet medical needs are high. The drug candidates are directed toward indication areas where available therapies are limited or missing and there are great opportunities to offer significant improvements to patients. Medivir is focusing on the development of fostroxacitabine bralpamide (fostrox), a drug candidate designed to selectively treat cancer cells in the liver and to minimize side effects. Collaborations and partnerships are important parts of Medivir's business model, and the drug development is conducted either by Medivir or in partnership. Medivir's share (ticker: MVIR) is listed on Nasdaq Stockholm's Small Cap list. www.medivir.com.
