## New agreement – Sergelkliniken in Stockholm starts up with CoreTherm® treatments

**ProstaLund has signed an agreement for CoreTherm® with the new customer Sergelkliniken AB.**

ProstaLund has signed an agreement with Sergelkliniken AB. The agreement means that ProstaLund installs CoreTherm® machine with accessories at Sergelkliniken in Stockholm and the plan is for the first CoreTherm® treatments to be performed in February.

Sergelkliniken works within Vårdval Urologi in Region Stockholm and has received additional assignments within the agreement to perform heat treatment of benign prostatic hyperplasia. Sergelkliniken is the fourth clinic in Stockholm that will perform CoreTherm® treatments.

ProstaLund's CEO Johan Wennerholm: "I am very pleased that there will now be another clinic in Stockholm that will perform CoreTherm® treatments. Despite our existing customers working at high pressure, almost 300 men with prostate enlargement are waiting for surgery/action in the capital. Sergelkliniken's CoreTherm® start-up will most certainly contribute to shortened waiting times."
