

Maven Wireless shows their digital railway infrastructure products at InnoTrans 2022 in Berlin

Maven Wireless Sweden AB (publ) will be present at the InnoTrans 2022 Conference, taking place at Berlin Messe from 20 – 23 September 2022. Hall 4.1 Stand 870.

Maven Wireless offers the most sustainable digital radio communication products on the market, reducing power consumption with 50%. The products are built with the latest digital technology to achieve higher data rates and better radio coverage in tunnels. The digital technology enables Maven Wireless to include all existing and future technologies in the same radio unit, for example FM, DAB, VHF, UHF, extended GSM-R and FMRCs. Also, for high speed in-train mobile coverage Maven Wireless provides digital repeaters for uninterrupted and secure voice and data communications. These products will be shown and demonstrated at the event.

InnoTrans is the leading international trade fair for transport technology and takes place every two years in Berlin. Sub-divided into the five [trade fair segments](#) Railway Technology, Railway Infrastructure, Public Transport, Interiors and Tunnel Construction, InnoTrans occupies all 42 halls available at Berlin Exhibition Grounds. The [InnoTrans Convention](#), the event's top-level supporting programme, complements the trade fair and will be streamed live.
