## Viscaria completes a directed share issue of 18,016,000 shares, raising proceeds of approximately SEK 440 million

**The Board of Directors of Gruvaktiebolaget Viscaria ("Viscaria" or the "Company") has, based on the authorisation from the annual general meeting on 7 May 2024, resolved to carry out a directed share issue of 18,016,000 shares at a subscription price of SEK 24.40 per share (the "Share Issue"). The subscription price has been determined through an accelerated book building procedure performed by Carnegie Investment Bank AB (publ) ("Carnegie") and Skandinaviska Enskilda Banken AB ("SEB"). The Share Issue received strong interest from new and existing shareholders, and was significantly oversubscribed.**

The bookbuilding procedure that was announced by the Company earlier today has been completed and Viscaria's Board of Directors has resolved to carry out a directed issue of 18,016,000 shares, at a subscription price of SEK 24.40 per share, consequently raising proceeds of approximately SEK 440 million before transaction costs. The subscription price in the Share Issue corresponds to the closing price for the Viscaria share on Nasdaq Stockholm on 18 June 2024. A number of new institutional investors have subscribed for shares in the Share Issue, including funds managed by Swedbank Robur, SEB Stiftelsen and Ålandsbanken, and a number of existing shareholders, such as TomEnterprise, the Fourth Swedish National Pension Fund (AP4), Handelsbanken Fonder and Skandia. The Share Issue was significantly oversubscribed.

After the Share Issue, the total number of shares in Viscaria will amount to 108,096,342. The purpose of the Share Issue is to secure financing for the reopening of the Viscaria mine, and to broaden and strengthen the shareholder base. The proceeds from the Share Issue will be utilized for continued funding of the planning- and construction phase.

### **Jörgen Olsson, CEO Viscaria, comments:**

*"We are grateful for the support we have received from existing and new owners, and would especially like to welcome Swedbank Robur, SEB Stiftelsen and Ålandsbanken as new shareholders. Together with previous shareholders such as TomEnterprise, the Fourth Swedish National Pension Fund (AP4), Handelsbanken Fonder and Skandia, they show valuable support for this important project. Through the environmental permit, Viscaria has been given an important opportunity to meet part of the growing global demand for responsibly and locally produced copper. We look forward to restarting the Viscaria mine which, when fully operational, will increase the Swedish production of copper concentrate by more than 30 percent."*

**Swedbank Robur comments:**

*"We are pleased to support the Swedish basic industry project to be carried out by Viscaria. The environmental permit that the Company recently received was important. We believe that the demand for responsibly and locally produced copper will increase, and Viscaria plays a role in the future sustainable copper consumption in Europe."*

As previously announced, the Company was granted environmental permit from the Land and Environment Court on 6 May 2024, and, as expected, the permit was thereafter appealed by a number of parties. The Land and Environment Court of Appeal is currently evaluating whether the appeals submitted will be considered. After the environmental permit for the Viscaria mine gains legal force, the Company will have to carry out a larger capital raise. In line with previous communication, the initial investment ("Initial CAPEX") for the reopening of the Viscaria mine is estimated to amount to approximately SEK 4.5 – 5 billion (excluding running operating costs) and consist of 60 percent debt financing and 40 percent new equity.

Similar to the reasons for the directed share issue carried out in 2023, the Board assesses that the future need for capital requires a further broadening of the ownership base with additional well capitalised shareholders that can support the Company in the long-term. Through the Share Issue, the Company has received more long-term, well capitalised institutional shareholders, that also are deemed to have financial capabilities to support the Company with capital in future capitalisations. Among these new institutional shareholders, there has been a preference for additional investments from certain existing shareholders, whose interest to increase their investments have been sounded. The Company's assessment is also that it is desirable that such existing shareholders, in their capacity as professional and/or institutional investors, increase their holdings and thus their responsibility for the Company's future capitalisation. Furthermore, the Board of the Company considers that the appeal procedure regarding the environmental permit, which the Company is currently under, entails a risk profile which is hard to assess as regards outcome and timing, and a new share issue directed towards professional and institutional investors is therefore assessed to be more appropriate.

In order to further support the Board's outlook, representatives of the Company have sounded the interest of a number of existing shareholders regarding if they would prefer a rights issue or a directed share issue to new shareholders or other existing shareholders in at this stage. An overwhelming majority were of the opinion that a directed share issue was desirable, irrespective of if they wished to participate in a directed share issue or not, partly because of the above-mentioned long-term strategic reasons for a procurement of capital, partly because of the favourable subscription price for the Company and all shareholders, and partly because of the high and, presumably, increasing uncertainty on both the stock market and the financing markets.

The Board's overall assessment is that the reasons for carrying out the Share Issue at this time, and in this way, and thereby ensuring and increasing some institutional and professional existing shareholders' commitment to and responsibility for the Company, strongly outweigh the reasons that justify the main rule of issuing shares with preferential rights for existing shareholders. Thus, the Board assesses that a new issue with a deviation from the shareholders' preferential rights is in the interest of the Company and all shareholders.

As the subscription price in the Share Issue was determined through a bookbuilding procedure, the Board assesses that the subscription price will be on market terms, such that it reflects prevailing market conditions and investor demand.

The Share Issue entails an increase in the number of shares in Viscaria from 90,080,342 shares to 108,096,342 shares. The Company's share capital increases from SEK 180,160,684 to SEK 216,192,684. The Share Issue implies a dilution of approximately 17 per cent in relation to the total number of outstanding shares and votes in the Company after the Share Issue.

In connection with the Share Issue, the Company has undertaken, subject to customary exceptions, not to issue additional shares during a period of 90 calendar days from the settlement date. In addition, the Company's Chairman of the Board of Directors, Chief Executive Officer and CFO, respectively, as well as the Company's largest shareholder Thomas von Koch via holding company, have agreed, subject to certain exceptions, not to sell any shares in Viscaria during a period of 180 calendar days from the settlement date.

### **INFORMATION TO DISTRIBUTORS**

In order to comply with the product governance requirements contained in: (a) Directive 2014/65/EU of the European Parliament and of the Council on markets in financial instruments, as consolidated, ("**MiFID II**"); (b) Articles 9 and 10 of Commission Delegated Directive (EU) 2017/593, which complements MiFID II; and (c) national implementing measures (together, the "**MiFID II Product Governance Requirements**") and to disclaim any extra-contractual, intra-contractual or other liability to which any "manufacturer" (within the meaning of the MiFID II Product Governance Requirements) may otherwise be subject, the shares of Viscaria have been subject to a product approval process, which has determined that those shares are: (i) suitable for a target market consisting of retail investors and investors meeting the criteria of professional clients and eligible counterparties, as defined in MiFID II (the "**Positive Target Market**"); and (ii) suitable for distribution through all distribution channels permitted under MiFID II (the "**EU Positive Target Market**"). Solely for the purposes of each manufacturer's product approval process in the United Kingdom, the target market assessment in respect of the shares in the Company has led to the conclusion that: (i) the target market for such shares is only eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook, and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("**UK MiFIR**"); and (ii) all channels for distribution of such shares to eligible counterparties and professional clients are appropriate (the "**UK Target Market Assessment**" and, together with the EU Target Market Assessment, the "**Target Market Assessment**"). Notwithstanding the Target Market Assessment, Distributors should note that: the price of the shares in Viscaria may decline and investors could lose all or part of their investment; the shares in Viscaria offer no guaranteed income and no capital protection; and an investment in the shares in Viscaria is compatible only with investors who do not need a guaranteed income or capital protection, who (either alone or in conjunction with an appropriate financial or other adviser) are capable of evaluating the merits and risks of such an investment and who have sufficient resources to be able to bear any losses that may result therefrom. Conversely, an investment in the shares of Viscaria is not suitable for investors who need full capital protection or full repayment of the amount invested, cannot bear any risk or who require a guaranteed or predictable return (the "**Negative Target Market**", and together with the Positive Target Market, the "**Target Market**"). The Target Market Assessment is without prejudice to the requirements of any contractual, legal or regulatory selling restrictions in relation to the Share Issue. Furthermore, it is noted that, notwithstanding the Target Market Assessment, Joint Bookrunners will only procure investors who meet the criteria of professional clients and eligible counterparties.

*For the avoidance of doubt, the Target Market Assessment does not constitute: (a) an assessment of suitability or appropriateness for the purposes of MiFID II or UK MiFIR; or (b) a recommendation to any investor or group of investors to invest in, or purchase, or take any other action whatsoever with respect to the shares in Viscaria.*
