

BeammWave awarded a technology development contract within the defence sector

BeammWave AB has today been awarded a technology development contract by a government agency operating within the framework of the Swedish Total Defence. The order value amounts to SEK 1,870,000.

"This contract is of great strategic importance for BeammWave. It serves as a strong validation of our technology in a highly demanding environment and opens up new, critical applications for our solutions," says Stefan Svedberg, CEO of BeammWave.
