About Us

Klappir is a rapidly growing sustainability software company with its roots in the Nordic countries. The company is now broadening its global presence by providing its solutions through an expanding network of partners. Klappir stands out due to its comprehensive approach to operations, trusted experience, groundbreaking product portfolio, and strategic expansion into new markets. In a world increasingly focused on sustainability, Klappir is not only driving its own growth but also spearheading a transformative shift in how businesses align with the complex challenges of sustainability accounting and reporting.

Klappir has emerged as the foremost provider of sustainability software, offering an advanced platform thoroughly crafted to empower effective sustainability management across various sectors such as businesses, municipalities, and governments. The core of Klappir's offering lies in its ability to seamlessly facilitate engagement with sustainability data, enabling enhanced efficiency and well-informed decision-making.

As a world-class innovator in sustainability software solutions, Klappir holistic approach to operations, innovative product offerings, and strategic market expansion pave the way for businesses to thrive in an increasingly sustainability-driven world. Klappir's visionary journey promises not only growth but also a transformative impact on how companies navigate and embrace the complexities of sustainability accounting and reporting.

Klappir B shares are listed on Nasdaq First North Iceland (KLAPP-B). For more information, visit <https://www.klappir.com/investors>
