

Maven Wireless receives a first order from Vodafone Ziggo

VodafoneZiggo will use Maven Wireless high power digital DAS to build mobile coverage in the Westfield Mall of the Netherlands. The order value is 1,7 MSEK.

Maven Wireless digital Distributed Antenna System (DAS) was selected by VodafoneZiggo primarily based on its sustainable DAS product with the lowest CO2 emissions on the market. The simple interface with one layer for all technologies making upgrades for 5G very simple was also a key factor in the selection process.

“I am very happy to win our first purchase order from one of the key mobile operators in the world. This is a confirmation of us having the best digital DAS products in the world with support for 5G and future technologies “ says Fredrik Ekström CEO of Maven Wireless.
