

# Change in the number of shares and votes in Starbreeze AB

According to the Financial Instruments Trading Act (1991:980), Swedish limited liability companies whose shares are admitted to trading on a regulated market and which increase or decrease the total number of shares or votes in the company must publish changes as of the last trading day of the current month. In accordance with Starbreeze' articles of association, holders of series A-shares have the right to request that the shares be converted into series B-shares. The purpose of the conversion program is eventually to only have series B-shares issued. Such a conversion reduces the total number of votes in the company but does not affect owner's share in terms of capital.

During the current month, Starbreeze AB has carried out a directed new share issue of 147,676,204 shares in series B, which was announced by press release on May 6, 2025. At the request of shareholders, 735 shares of series A have been converted into the same number of shares of series B. The total number of votes in Starbreeze after the issue and subsequent conversion amounts to 2,757,125,926.

The total number of registered shares in the company after the conversion amounts to 1,624,438,244, of which 142,261,919 series A-shares and 1,482,176,325 series B-shares.
