

Robert Belkic to join Polarium as Chief Financial Officer

Stockholm, 4 July 2023

Robert Belkic will join Polarium, a leading energy storage developer, as Chief Financial Officer commencing September 1st, 2023. Robert Belkic joins Polarium from Hexagon AB where he has served as Chief Financial Officer since 2012. He is also a board member of Storskogen Group AB and Vimian Group AB.

“We are delighted that Robert will join Polarium as Chief Financial Officer. From his time in the management team at Hexagon, Robert brings extensive experience of successfully driving a high-tech automation and autonomy company through a high growth scale up phase in a global setting. We believe Robert is the ideal candidate to support Polarium during this next phase in our growth journey”, says Stefan Jansson CEO and founder of Polarium.

“I very much look forward to joining Polarium in this very exciting phase in the company’s development but also to be part of an impact business and its mission to unlock endless energy. Polarium as an entrepreneurial founded, global business with strong owners and impressive board of directors makes it an ideal next step for me”, says Robert Belkic.

Polarium’s current Chief Financial Officer, David Granath, has decided to leave his current role. David will stay on in a transitional period until October 1st, 2023.

“I would also like to take this opportunity to thank David Granath for his extensive contributions to Polarium during these past two years during which the company has expanded to new geographies and customer segments, launched our Energy Optimization system and reached over 2 billion SEK in revenues”, adds Stefan Jansson.

About Polarium

Polarium is a leading energy storage developer. We make energy storage and optimization solutions built on lithium-ion battery technology for businesses within telecom, commercial and industrial facilities across the world. Polarium was founded in 2015 on the conviction that safe, smart and sustainable energy storage solutions will be key to empower the transition to a truly, sustainable energy future. We are an impact business contributing to the sustainable energy transformation by enabling renewables, electrification, and intermittent power supply.

Our cutting-edge and easily adaptable modular battery technology enables us to be in the forefront of developing state-of-the art sustainable energy storage and optimization solutions for today – and tomorrow. Polarium is a fast growing, entrepreneurial company headquartered in Stockholm, with production in Mexico, South Africa and Vietnam, customers across the world from Ghana to Svalbard and 600+ employees.
