

36 Group completes initial 1 MSEK capital allocation to its Bitcoin reserve

36 Group AB (“the Company”) announces that today, 27 February 2026, the Company completed a capital allocation of 1 MSEK to Bitcoin (BTC), within the framework of the financing agreement previously entered into with Loft Capital.

Under the financing agreement, the total framework for capital allocation to Bitcoin amounts to a maximum of 3 MSEK.

Transaction details

- Invested amount: 109,946.39 USD (approximately 1 MSEK)
- Average acquisition price: 65,887.45 USD per BTC
- BTC acquired: 1.6687 BTC
- Total BTC holdings following the transaction: 1.6687 BTC

Completed and any potential future acquisitions are carried out in accordance with the financing agreement, the Company’s internal decision-making procedures, and in mutual agreement with Loft Capital.

Operational focus

The Company’s primary focus remains the development and scaling of the Group’s iGaming operations, including online casino operations as well as platform and technology solutions. The capital allocation to Bitcoin is a complement to this operational direction.

The allocation is executed within the financing structure previously communicated and does not alter the Company’s prioritization of operational development and cash flow–generating activities.
