

The contract for the delivery of MobiMed Life to Region Kronoberg has been officially signed

As previously reported, Ortivus was awarded a contract on June 12, 2023, for the delivery of MobiMed Life defibrillators to Region Kronoberg's ambulance and hospital operations. The contract has now been signed by both parties. The contract duration is 2 years with a possible extension of an additional 1+1 year. The estimated order value for the initial 2 years is 4.9 MSEK.

We are pleased to announce that a contract has been signed between Ortivus and Region Kronoberg covering the delivery of MobiMed Life defibrillators to the region's prehospital and hospital care. Region Kronoberg, a longstanding customer of the company, has been utilizing Ortivus' services for numerous years. Presently, they employ MobiMed Monitor for prehospital patient monitoring and MobiMed ePR, an electronic patient record system.

"We are excited about our ongoing partnership with Ortivus and the upcoming implementation of MobiMed Life in Region Kronoberg's prehospital and hospital care. MobiMed Monitor and MobiMed ePR are already utilized in our daily operations, and with the forthcoming integration of MobiMed Life, we anticipate achieving even more streamlined workflows." - Says Richard Andersson, IT Manager Ambulance Operations, Region Kronoberg.

"That Region Kronoberg, a long-standing customer, has once again decided to trust our services, reaffirms the strength of our relationship and customer satisfaction. We are looking forward to delivering MobiMed Life and continuing our successful collaboration to enhance patient safety in the region." - Says Stefan Ekblom, Sales Manager Nordic at Ortivus.

About Ortivus

Ortivus develops and commercialises MobiMed, e-health and medical technology solutions for a safer and more efficient healthcare. The company was founded in 1985 and is today a leading provider of mobile digital solutions for prehospital care, worldwide. Ortivus' innovations are based on in-depth expertise in cardiology as well as decades of development together with users and customers. The company's headquarters are located in Danderyd, Stockholm. The company has, since 1998, a wholly owned subsidiary based in the United Kingdom and since 2022, a wholly owned subsidiary based in Denmark.

MobiMed is a modular platform that connects and enable real-time information sharing throughout the prehospital care chain. It is currently used by over 12,000 paramedics in over 2,700 emergency vehicles. The platform, MobiMed, consists of several product modules that are completely integrated but can also be used stand-alone. MobiMed comprises four main solutions: MobiMed Monitor, that measures, monitors and shares patients' vital parameters and ECG in real-time, MobiMed ePR, - an electronic patient record for decision support, collection of patient data and clinical documentation, MobiMed enRoute, - a tool for navigation and case management, and MobiMed Life - a range of stand-alone defibrillators.

MobiMed saves vital seconds and enable healthcare professionals make the right decisions in critical situations. MobiMed also contributes to improved quality of care and saved resources.

Ortivus Class A and Class B shares are listed on the NASDAQ Stockholm Small Cap list.
