Resolution regarding authorization for the board to acquire and transfer own ordinary shares

The Annual General Meeting resolved in accordance with the proposal from the board to authorize the board to acquire and transfer own ordinary shares according to the following. Acquisition of ordinary shares may only be made on Nasdaq Stockholm (“the **Marketplace**”) or in accordance with an offer to all shareholders in the company or all holders of ordinary shares. Acquisition may only be made of such number of ordinary shares that the company’s holding of shares at each time does not exceed 10 percent of all shares in the company. Transfer of ordinary shares may be made in other ways than on the Marketplace, including a right to transfer ordinary shares with deviation from the shareholders’ preferential rights and that payment may be made in cash, in kind, by set-off or otherwise with conditions. A maximum of 10 percent of the total number of shares in the company may be transferred. However, if, prior to the exercise of the authorization regarding transfer of own ordinary shares, the board has also exercised the authorization regarding new issue of ordinary shares, the number of ordinary shares that may be transferred under this authorization shall be reduced by the corresponding number of ordinary shares issued pursuant to the issue authorization.

The authorizations stated above may be utilized on one or several occasions up until the Annual General Meeting 2026. Acquisition and transfer of ordinary shares on the Marketplace may only be made at a price within the registered price interval at the Marketplace. Transfer of shares in connection with acquisitions of businesses may be made at a market price estimated by the board.

The purpose of the authorizations above to acquire and transfer ordinary shares, including any deviation from the shareholders’ preferential rights in connection with transfer, is to continuously be able to adjust the capital structure of the company to the capital needs of the company, to enable financing, in whole or in part, in connection with acquisitions of businesses and for financing and/or securing delivery of ordinary shares in long-term incentive programs previously adopted by the Annual General Meeting.

If the authorization regarding transfer of ordinary shares is used for transfers with deviation from the shareholders’ preferential rights, the board shall, in connection with the authorization being exercised, publish the reasons for the deviation from the shareholders’ preferential rights.

Resolution on authorization for the board to issue new ordinary shares to finance further growth and expansion

The Annual General Meeting resolved in accordance with the proposal from the board to authorize the board until the Annual General Meeting 2026, on one or more occasions, to decide on new issues of ordinary shares as follows.

This authorization entails the right to issue a maximum of 2,056,058 ordinary shares, i.e. maximum 10 percent of the number of issued shares after the completion of the cancellation of ordinary shares resolved at the Annual General Meeting. If the board, prior to the exercise of the authorization for new issue of ordinary shares, has also exercised the authorization regarding transfers of ordinary shares, the number of ordinary shares that may be issued under this authorization shall be reduced by the corresponding number of ordinary shares transferred under the transfer authorization.

Share issues may be made with or without deviation from the shareholders' preferential rights. The issue price shall be based on market practice.

New ordinary shares may be paid in cash, by set-off or by contribution in kind or otherwise be subject to conditions referred to in chapter 13 section 5 first paragraph 6 of the Swedish Companies Act.

The board shall have the right to decide the other terms and conditions of the share issue.

The purpose of the authorization and any deviation from the shareholders' preferential rights is to enable financing, in whole or in part, in connection with company acquisitions and to give the board the opportunity to adapt the company's capital structure.

If the authorization is exercised for a new share issue with deviation from the shareholders' preferential rights, the board shall, in connection with the authorization being exercised, publish the reasons for the deviation from the shareholders' preferential rights.

Resolution on (A) reduction of the share capital by way of cancellation of own ordinary shares; and (B) increase of the share capital by way of a bonus issue

The Annual General Meeting resolved in accordance with the proposal from the board to reduce the share capital by way of cancellation of 641,903 ordinary shares repurchased within the framework of the company's buyback program. As a result of the reduction, the share capital will decrease by SEK 747,957.209376. The purpose of the reduction is allocation to unrestricted equity. The Annual General Meeting further resolved in accordance with the proposal from the board to increase the share capital by SEK 747,957.209376 through a bonus issue, by transferring the same amount from the company's unrestricted equity without the issuance of new shares, in order to restore the share capital after the reduction of the share capital as set out above.
