

Klimator Selected for Plug and Play Prestigious Accelerator Program

Klimator, the only Swedish company among the nine selected in the Mobility category, has been chosen to participate in Plug and Play Japan's prestigious Winter/Spring 2025 Accelerator Program (Batch 14). A total of 54 companies from around the globe have been selected for this renowned initiative. The program focuses on fostering innovation by facilitating connections between Plug and Play Japan's corporate partners and the participating Japanese and international companies, driving collaboration through an intensive, high-impact experience.

"The program provides a unique opportunity to drive growth, strengthen existing relationships, and explore new partnerships through close collaboration with key industry players. Japan is a global leader in innovation and mobility within the automotive industry. It is renowned for its cutting-edge technology and forward-thinking advancements," says Viktoria Bogren, Head of Business Area Automotive at Klimator.

About Plug and Play Japan

Plug and Play Japan is a subsidiary of Plug and Play, the world's leading accelerator/venture capital.

We are a global innovation platform headquartered in Silicon Valley, 40+ leading companies of each sector participate in our programs as official corporate partners. Our major expertises are "support corporate partners creating innovation", "cross-industrial accelerator programs", "startup investment" and "support overseas business expansion of startups with the Japanese government", making best use of our extensive global network. Plug and Play Japan supports the co-creation and collaboration between Japanese/international startups with innovative technology/ideas and industry-leading corporations enabling them to generate innovation. About the Accelerator Program in Plug and Play Japan

Plug and Play Japan provides accelerator programs to accelerate innovation by connecting Plug and Play Japan's corporate partners with Japanese and international startups. Through these programs, corporate partners are able to connect with participating startups with technologies and services that could accelerate their innovation activities. For startups, they have the opportunity to collaborate with a wide range of major corporations. It is a great opportunity to get the latest updates on innovative technologies, meet cutting-edge startups, and develop new business partnerships.

About Klimator

Klimator AB is a publicly listed software company with over 30 years of research in applied road climatology. Klimator has two innovations – the data platform Road Condition Data (RCD), providing predictive high precision road weather information, and the sensor fusion solution AHEAD providing real-time detective road weather information. With these innovations, Klimator provides precise and reliable road weather information to the winter maintenance and the automotive industries creating safer roads and enabling scalable autonomous driving (AD) and intelligent driver support systems (ADAS). In 2020, Klimator acquired HedeDanmark's business operations within connected sensors to broaden and strengthen Klimator's product portfolio.
