Press Release 25 November 2026 07:51:00 CET

Instalco company signs framework agreement with Metsä Board

The Instalco subsidiary, Highcon, has signed a framework agreement with Metsä Board, a Finnish forest products company. It covers delivery of industrial scaffolding to the Husum board and pulp mill near Örnsköldsvik, Sweden. The agreement runs for three years.

“This is a major framework agreement covering a wide range of products and services, and we are delighted to have the opportunity to support their operations at the Husum facility. We have a great deal of experience with these types of assignments. Metsä Board is a new customer for us, and we’re delighted to embark on this collaboration,” says Daniel McCabe, CEO at Highcon.

Metsä Board’s facility in Husum is a paperboard and pulp mill that produces, among other things, folding boxboard and bleached chemical pulp. The industrial scaffolding supplied by Highcon will be used for ongoing maintenance at the Husum facility.
