

# Ortivus is awarded a contract for the delivery of MobiMed enRoute to Region Örebro

**Region Örebro län has chosen to award Ortivus a contract for the delivery of MobiMed enRoute to the region's ambulance operations. The order value is estimated at 8.3 MSEK, and the contract duration is 5 years with a possible annual extension for another 5 years.**

Ortivus announces that the company has been awarded a contract for the delivery of MobiMed enRoute to Region Örebro län's entire ambulance operations, which includes 30 vehicles. This contract covers Ortivus' innovation, MobiMed enRoute, a comprehensive solution integrating navigation, case management and mass casualty management. The contract mainly concerns software licenses, but also hardware, integrations to existing systems, and user training. The contract also includes the new communication solution, Comsuite, which improves internal and external communication in a traffic- and patient-safe manner.

Ortivus currently deliver MobiMed to 16 out of Sweden's 21 regions. Region Örebro län has been a longstanding customer of the company, utilising MobiMed Monitor, MobiMed ePR, and MobiMed Life in their daily operations. With this new contract, the region gains access to a competitive total solution for its ambulance services.

*"We have maintained a strong collaboration with Region Örebro län over the years, and we are very proud to once again earn their trust. We eagerly anticipate supplying MobiMed enRoute to the region, providing them with a highly competitive total solution tailored specifically for prehospital care." Says Stefan Ekblom, Nordic Sales Manager, Ortivus.*

The contract can earliest be signed after a period of 10 days from the date of the award, in accordance with the procurement regulations.

## About Ortivus

---

Ortivus develops and commercialises MobiMed, e-health and medical technology solutions for a safer and more efficient healthcare. The company was founded in 1985 and is today a leading provider of mobile digital solutions for prehospital care, worldwide. Ortivus' innovations are based on in-depth expertise in cardiology as well as decades of development together with users and customers. The company's headquarters are located in Danderyd, Stockholm. The company has, since 1998, a wholly owned subsidiary based in the United Kingdom and since 2022, a wholly owned subsidiary based in Denmark.

MobiMed is a modular platform that connects and enable real-time information sharing throughout the prehospital care chain. It is currently used by over 12,000 paramedics in over 2,700 emergency vehicles. The platform, MobiMed, consists of several product modules that are completely integrated but can also be used stand-alone. MobiMed comprises four main solutions: MobiMed Monitor, that measures, monitors and shares patients' vital parameters and ECG in real-time, MobiMed ePR, - an electronic patient record for decision support, collection of patient data and clinical documentation, MobiMed enRoute, - a tool for navigation and case management, and MobiMed Life - a range of stand-alone defibrillators.

MobiMed saves vital seconds and enable healthcare professionals make the right decisions in critical situations. MobiMed also contributes to improved quality of care and saved resources.

Ortivus Class A and Class B shares are listed on the NASDAQ Stockholm Small Cap list.
