

## Paxman publishes newsletter on strong order flow from the USA, the UK and international markets

**Today, Paxman publishes the September issue of its newsletter aimed at shareholders, investors and other interested parties.**

This month's issue highlights that Paxman sees a continued strong order flow during the last month in line with the company's expectations. Orders were received from customers in 11 states in the USA, several existing customers in the UK and from customers in 10 international markets with a large regional spread (Armenia, Georgia, Turkey, Italy, Romania, Czech Republic, Brazil, India, Qatar and the United Arab Emirates). These international orders included 10 systems each from the distributor Praesidia to Italy and the distributor Incomed to the Netherlands.

The newsletter also includes information on that Paxman received market registration in Indonesia for the PSCS model of its scalp cooling system, completed training of partners from Turkey, Italy and Uruguay within the Paxman Distributor Training Certification Program and that the company notices that the number of visitors at physical events has now risen to pre-pandemic levels.

To read the newsletter and subscribe for upcoming issues, follow this link:

Paxman's investor newsletter is published monthly as a part of the company's effort to strengthen its market communication together with the IR communication agency [Honeybadger](#). Every published issue of the newsletter is available on Paxman's website for investors, [www.paxman.se](http://www.paxman.se). The company encourages feedback and requests on topics for upcoming issues of the newsletter.

## About Us

---

The Paxman Scalp Cooling System has been developed by the Paxman family to reduce hair loss in breast cancer patients undergoing chemotherapy. The concept behind the system came when the mother of four, Sue Paxman, experienced first-hand the trauma of chemotherapy-induced hair loss. With close to 4,400 systems delivered in to hospitals, clinics and treatment centres around the world, PAXMAN is the leading supplier of Scalp Cooling technology. PAXMAN's scalp-cooling cap is made from lightweight, biocompatible silicone that is soft and flexible, providing a snug yet comfortable fit during treatment. PAXMAN AB (publ) has its headquarters in Karlshamn (Sweden), with subsidiaries in Huddersfield (UK) and Houston, Texas (US).

The PAXMAN share is listed on Nasdaq First North Growth Market. FNCA Sweden AB is the company's Certified Adviser and can be contacted via [info@fnca.se](mailto:info@fnca.se) and +46 (0)8 528 003 99.
