

## **Aino Health AB signs cooperation agreement with Attendo**

**Aino Health and Attendo Health Care Services have signed a cooperation agreement regarding Aino's HealthManager platform. With Aino's HealthManager, Attendo extends its portfolio for corporate health management platforms. The cooperation with Attendo Health Care Services enables Aino to scale and grow with a partner network. The cooperation will take place starting from April 2018.**

"Through this collaboration, we can work together to improve Attendo's customers' productivity and increase employee engagement. With HealthManager, Attendo can offer a broader range of services to its customers, making Attendo a more attractive partner. Co-operation with Attendo is an important part of our partnership strategy that enables us to scale our business," says Markku Pitkänen, Country Manager of Aino Health Finland.

HealthManager is a digital platform that compounds corporate health management processes and measures the effectiveness of related actions. HealthManager encompasses the management of sick leave absences, healthcare stakeholders and internal management of health-related processes. The service offers reporting and analytics tools to follow key metrics related to corporate health management. HealthManager helps organizations to ensure work ability and increase productivity.

"Cooperation is a great opportunity for us to expand our service portfolio with Aino's platform that can digitize corporate health management processes such as the early intervention model. This will definitely lead to better management, transparency and, indeed, reductions in sick leave absences and thus cost savings. We see that there is a huge demand for this kind of a platform in organizations," says Annu Voutilainen, Regional Director at Attendo Occupational Health Care Services.

Attendo is the largest healthcare and care company in the Nordic countries. The company has more than 24,000 employees in the Nordic countries and is a major employer in Finland and Sweden. Attendo Finland is a group of companies that manage private social and healthcare services under the Attendo Group. In 2017, Attendo Finland's turnover was EUR 511 million.
