ASTG strengthens leadership with new CFO

ASTG strengthens leadership through the hiring of Viveka Hiort af Ornäs as new CFO

ASTG is announcing that it has hired Viveka Hiort af Ornäs as CFO for the company. Viveka has worked in several CFO and Finance Management positions throughout her career, recently in the aviation industry.

“We have, for the past few years, been using an external accounting firm to manage our financials and reporting, however, with our recent expansion of the company and our future plans we have a need for a strong and business-oriented CFO who is fully dedicated to our mission and vision. Viveka holds these qualities and will takeover our financial management and reporting going forward. I warmly welcome Viveka to the leadership team”, says Carsten Drachmann, CEO at ASTG.

About Advanced Stabilized Technologies Group AB

ASTG includes the wholly owned subsidiary AIMS AB & Satmission AB.

ASTG AB develops, manufactures and sells innovative 4-axes stabilizing VSAT antennas for maritime use. The company is also selling development projects based on C2SAT's antenna platform. AIMS AB develops and sells advanced inertial sensor units (IMUs) designed to measure movements in three dimensions. Satmission AB is a leading designer and manufacturer of mobile satellite communications systems for broadcasting.

The company's registered office is in Stockholm, Sweden.

The company is listed at Nordic SME stock exchange.
