Election of Chairman of the meeting (item 2)

It is proposed that Eolus' General Counsel, Karl Olsson, shall be elected Chairman of the EGM.

Resolution on amendments of the Articles of Association, including change of the company's financial year and insertion of a conversion provision (item 7).

For the purpose of reducing the effects of seasonal variations, the Board of Directors proposes that the EGM resolves to change the company's financial year to run from 1 January to 31 December. In connection therewith, the Board of Directors proposes that the current financial year is extended to cover a period of 16 months, that is, until 31 December 2020. Accordingly, the Board of Directors proposes that the EGM resolves to amend current § 13 of the Articles of Association in accordance with the following.

Current § § 13	Current wording The Company's financial year is 1/9 – 31/8.	Proposed § § 14	Proposed wording The Company's financial year is 1 January – 31 December.

Further, the Board of Directors proposes that the EGM resolves that the company, in addition to Hässleholm, shall be able to hold its general meetings in Malmö, Gothenburg and Stockholm, by including a new § 9 in the Articles of Association in accordance with the following.

Proposed § § 9	Proposed wording The general meeting shall be held in Hässleholm, Malmö, Göteborg or Stockholm.
-------------------	--

Furthermore, the Board of Directors proposes that the EGM resolves to include a conversion provision as a new paragraph of § 5 of the Articles of Association and, as a consequence of this, to also amend the provision regarding the maximum and minimum amount of shares in the first paragraph of the same section, in accordance with the following.

Current § § 5	Current wording The shares may be Class A shares or Class B shares. The Class A grants 1 vote, and the Class B share grants 1/10 of a vote. When the share capital increases through a cash issue or set-off issue, shareholders have preferential rights to the new shares in proportion to the number of shares they already own. Owners of Class A shares are primarily entitled to new Class A shares, and owners of Class B share are primarily entitled to new Class B shares. Shares that are not subscribed to by shareholders with priority are to be offered to all shareholders, and if the entire number of shares subscribed due to the latter offer are not available, the shares are to be divided among the subscribers in proportion to the number of shares they already own, and through a lottery to the extent this is not possible. The same preferential rights are to apply in case of issue of warrants and issue of convertibles instruments. When share capital is increased through a bond issue, Class A shares and Class B shares are to be issued in proportion to the number of shares of the same class that already exist. The existing shares are thus to yield priority to the new shares of the same class in relation to the proportion of share capital that they represent.
