Maha Energy AB (publ) (“Maha” or the “Company”) Announces November Production Volumes

The Company's aggregate sales production for the month of November totaled 42,676¹ barrels of oil and 25.533 million scf of gas for a combined average production of approximately 1,564 BOE/day², before royalties and taxes.

November oil production continues to be bottlenecked due to flaring limitations at the Tie Field. The Company's previously announced plans to debottleneck production by increasing the offtake of compressed gas, and commissioning of an “onsite” gas electrification project remain on track for the beginning of 2018.

¹ Subject to minor standard industry adjustments at the time of custody transfer.

² Barrels of oil equivalent (“BOE”) conversion ratio of 6,000 scf : 1 bbl is used.
