JonDeTech establishes a subsidiary in Hong Kong

JonDeTech has registered a subsidiary in Hong Kong to make the company ready for the commercialization phase they are currently in. The company, named JonDeTech Asia Ltd., will be the local hub for customers and investors in the Asian market. The board will consist of CEO Dean Tasic and board member David Wu.

- With the establishment in Hong Kong, we are getting closer to important target groups for the company, which will cut lead times and facilitate business transactions. Currently, the company is only registered, but as our sales activities in the region increase, we will also establish a physical presence, says Dean Tasic, CEO JonDeTech.

That the markets in Asia are essential to JonDeTech has already been demonstrated through, among other things, the cooperation agreement with Sunshine Technologies Co. and the recently communicated order from Zhuhai Yaoyang Electronic Technology Co., Ltd (Yoyon).

For more information, please contact:

Dean Tasic, CEO JonDeTech, phone: +46 73 994 85 70, mail: dean.tasic@jondetech.com

About JonDeTech

JonDeTech is a supplier of sensor technology. The company markets a portfolio of IR sensor elements based on proprietary nanotechnology and silicon MEMS. The nanoelements are extremely thin, built-in flexible plastic, and can be manufactured in high volumes at a low cost, which opens up for a variety of applications, such as temperature and heat flow measurements, presence detection, and gas detection. The company is listed on Nasdaq First North Growth Market. Redeye is the company's Certified Adviser. Read more at www.jondetech.se or see how the IR sensor works at www.youtube.com/watch?v=2vEc3dRsDq8.
