

JonDeTech resolves on directed issues of shares to Nordic Growth Opportunities 1

JonDeTech Sensors AB (publ) ("JonDeTech" or the "Company") hereby announces that the Board of Directors, pursuant to the authorisation granted by the general meeting on 28 June 2023, has resolved on five (5) directed share issues to Nordic Growth Opportunities 1 (the "Investor"). The issues are carried out because the Investor, in accordance with the financing agreement that JonDeTech announced through a press release on 29 April 2023 (the "Financing Agreement"), has requested subscription of shares in the Company of an amount exceeding SEK 500,000.

The Board of Directors of JonDeTech has today resolved on a total of five (5) directed share issues to the Investor (the "**Directed Share Issues**"). The reason for the deviation from the shareholders' preferential rights is to fulfill the terms under the Financing Agreement. The background to the resolutions is that the Investor has requested subscription of shares in the Company of an amount exceeding SEK 500,000. According to the Financing Agreement, the Company shall therefore resolve to issue shares at a value corresponding to the amount requested by the Investor for subscription.

The investor has called for subscription of shares on five different occasions corresponding to a total value of SEK 500,000. The subscription price for all issues has been calculated in accordance with the Financing Agreement and corresponds to ninety-five per cent (95%) of the average of the second (2nd) and third (3rd) lowest daily volume weighted average price during ten (10) trading days ("**VWAP period**") prior to the respective request for subscription of shares, according to Nasdaq First North Growth Market's price list for the share in the Company. The Board therefore considers the subscription price in each issue to be on market terms. The reason for the deviation from the shareholders' preferential rights is to fulfil the terms of the Financing Agreement, which the Board of Directors considers to be in the interest of all shareholders.

Payment for the subscribed shares has been made by partial set-off of the tranches paid to the Company under the Financing Agreement. The other terms of the Directed Share Issues are set out below:

- 526,315 shares are issued at a price of SEK 0.19 resulting in an increase of the share capital by SEK 20,114.461430
- 526 315 shares are issued at a price of SEK 0.19 resulting in an increase of the share capital by SEK 20,114.461430
- 500,000 shares are issued at a price of SEK 0.20 resulting in an increase of the share capital by SEK 19,108.767022
- 526,315 shares are issued at a price of SEK 0.19 resulting in an increase of the share capital by SEK 20,114.461430
- 588,235 shares are issued at a price of SEK 0.17 SEK resulting in an increase of the share capital by SEK 22,480.891137.

The Directed Share Issues entail that the Company's share capital in total increases by approximately SEK 101,933.04, from approximately SEK 5,026,788.10 to SEK 5,128,721.14. The number of shares in the Company will increase by 2,667,180, from 131,530,938 to 134,198,118. The share issues entail a total dilution for existing shareholders of approximately 1.99 per cent of the number of shares and votes in the Company.
