

Quickbit signs its first customer on Abicart's e-commerce platform

Today, Quickbit announces that the first customer on Abicart's e-commerce platform has been signed. This marks the initial step in Quickbit's strategic collaboration with Abicart, providing Quickbit access to a large and growing network of merchants.

In early November 2023, Quickbit entered into a cooperation agreement with the e-commerce platform Abicart. This collaboration grants Quickbit access to an extensive network of merchants, totaling approximately 2500.

Now, Quickbit signs its first merchant through the platform – a vendor of locks and security products. The merchant has expressed great enthusiasm for the opportunity to activate Quickbit Pay as a payment solution, thereby offering its customers a modern and seamless payment experience.

While Quickbit Pay has not yet been integrated into Abicart, Quickbit expects the integration of the payment service to be completed shortly.

"I am pleased that we have quickly managed to sign our first customer with Abicart, who is as eager as we are to go live with our solution. Now, we look forward to continuing our expansion on Abicart's platform and announcing more successful customer activations in the near future", says Jesper Sundström, Head of Growth at Quickbit.
