

Quickbit welcomes new customer via Abicart's e-commerce platform

Today, Quickbit announces that a new customer has been signed via the Abicart e-commerce platform. It is the second customer Quickbit signs since the collaboration with Abicart started at the beginning of November.

At the beginning of November 2023, Quickbit signed a cooperation agreement with the e-commerce platform Abicart. The cooperation agreement gives Quickbit access to an extensive network of e-commerce companies, amounting to approximately 2,500.

Now, Quickbit signs its second e-commerce customer through the platform – a seller of hobby products. The merchant is eager to get started with Quickbit Pay to offer its customers a smooth, flexible and secure payment experience.

"The fact that we have managed to sign two e-merchants via Abicart in such a short time is a sign of the great interest we have seen in Quickbit Pay as a payment option. Our ability to quickly meet the needs of merchants is central to our strategy, and we are enthusiastic over the positive response we have received so far," says Jesper Sundström, Head of Growth at Quickbit.

With a second customer on board and more in the pipeline, Quickbit looks forward to continuing its expansion as a challenger in payment solutions for the e-commerce sector.
