

Quickbit announces correction regarding board member's acquisition of shares

Today, Quickbit announces a correction regarding the press release that was sent out on December 7, 2023, where Quickbit announced that binding agreements had been entered into with the Board, Group Management and certain other stakeholders regarding the acquisition of shares subscribed by guarantors and which had been for sale.

Due to various factors, including the fact that board member Scott Wilson has foreign citizenship, Scott has not been able to acquire his ownership stake, amounting to 60,000 shares, in the block purchase from guarantors announced on December 7, 2023. Therefore, Scott has instead acquired shares directly over the market. The number of shares acquired over the market amounts to 80,000 and corresponds to SEK 108,800. Except for this, no other changes have taken place in the information announced on 7 December 2023.
