

Eolus signs PPA with a major global energy company for three wind farms in Sweden

Hässleholm, Sweden, January 13th, 2021

Eolus has signed individual PPAs with a major global energy company for three wind power projects in Sweden that will be commissioned in the autumn of 2023 that total 68 MW. The wind farms have been sold to Commerz Real in an agreement that was made public on September 29th, 2020.

The overall agreement with the major global energy company covers 100 % of the produced electricity volume in the wind farms Boarp (24 MW), Dällebo (26 MW) and Rosenskog (18 MW) in Southern Sweden. In total the wind farms will comprise 7 Siemens Gamesa SG 5.8-170 wind turbines and 4 Siemens Gamesa SG 5.8-155 wind turbines delivered in different power ratings.

-This is the first PPA that Eolus has signed with this major global energy company and we are pleased to be involved in providing renewable energy from onshore wind power in Sweden says Eolus CEO Per Witalisson.

-The agreement highlights how attractive wind power is on the energy market and once again shows that Eolus can tailor agreements with different stakeholders successfully says Eolus COO Marcus Landelin.
