

NEW ORDER AND FIRST DELIVERY OF KEBNI SENSATION

KebNi AB (publ) fulfilled delivery of another order for the SensAltion IMU (Inertial Measurement Unit) platform

Stockholm, 20 January 2022 – Today, Kebni announces a new order from a new client regarding the coming inertial sensing multisensor platform called SensAltion. The order is for qualifying SensAltion in a completely new use-case. To facilitate easy testing and integration, SensAltion was ordered and delivered with its comprehensive development kit.

“It is exciting to see the first SensAltion unit get produced, calibrated, pass the demanding performance tests, and get shipped to our enthusiastic client. We’ve worked hard and fast to facilitate this time-critical delivery, and today we get to reap the benefits of delivering what’s been requested at spec and on time.” – Erik Winther, Head of Sales

“Kebni has done an impressive job in getting this far this fast. We’re enthusiastic about the process so far and look forward to initiating the qualification for our use-case” – Undisclosed client CEO

The value of this single-unit order is financially insignificant but strategically important. If the undisclosed client’s qualification of the IMU proceeds as anticipated, there is potential for a volume order later this year.

About KebNi AB (publ)

Kebni has a long history and extensive experience in maritime and land-based satellite antenna solutions as well as solutions for inertial sensor systems for motion detection. The company, headquartered in Stockholm, is focused on becoming a leading supplier of reliable technology, products and solutions for satellite communications, security, positioning, and stabilization. Kebni's products and solutions are aimed at government, military, and commercial customers. The company operates in the global market, directly and through a network of resellers.

Kebni currently has operations in two different product areas - satellite communication and inertial sensors. These are described in detail at www.kebni.com.

Kebni – "Bringing stability to a world in motion".

The company's share (KEBNI B) is traded on the Nasdaq First North Growth Market. Certified Adviser is G&W Fondkommission, e-mail: ca@gwkapital.se, telephone: 08-503 000 50.
