KEBNI EXPANDS ITS GLOBAL PRESENCE IN 17 NEW MARKETS

KebNi AB (publ) keeps building a global and cost-effective sales organization, with eyes out on the markets

Stockholm, 26 January 2022 - Since June 2021, Kebni has in line with its strategy, established a sales network of local market consultants and re-seller establishments covering 17 countries. The latest addition is a Market Consultant and Re-seller network in Korea.

Kebni AB announces today that GHB Tech Co. Ltd has been assigned as Kebni representative in Korea. A network of Market Consultants and Re-seller established under GHB Tech will start to explore ongoing and upcoming prospects for Kebni Satcom and IMU products. The network of Consultants and Re-sellers under GHB Tech, is well-established and well reputed in Korea, with good contacts and relationship with Government and military customers, as well as the local industry.

By this engagement Kebni strengthens its presence in Korea, where we see great potential for Kebni products, particularly for IMU solutions to the defense industry, but also to local industry and commercial applications. Korea opens a potential for joint product development and local production.

"We welcome GHB Tech as our new local representative in Korea as we embark on the next phase of our journey. We also welcome GHB Tech network of consultants and re-seller to be part of the Kebni family. This partnership will form a solid basis on which we can further strengthen and accelerate our growth ambitions in the region," says Kristian Wallin, Kebni CCO

For more information, please contact our CEO, Torbjörn Saxmo on telephone 070 916 14 82.

About KebNi AB (publ)

KebNi has a long history and extensive experience in maritime and land-based satellite antenna solutions as well as solutions for inertial sensor systems for motion detection. The company, headquartered in Stockholm, is focused on becoming a leading supplier of reliable technology, products and solutions for satellite communications, security, positioning, and stabilization. KebNi's products and solutions are aimed at government, military, and commercial customers. The company operates in a global market, directly and through a network of resellers.

KebNi currently has operations in two different product areas - satellite communication and inertial sensors. These are described in detail at www.kebni.com.

KebNi "brings stability to a world in motion".

The company's share (KEBNI B) is traded on the Nasdaq First North Growth Market. Certified Adviser is G&W Fondkommission, e-mail: ca@gwkapital.se, telephone: 08-503 000 50.
