Kebni Inertial Sensing receives 2.5 MSEK order

KebNi AB (publ.) receives an order regarding NAV02 inertial measurement units with a total value of 247 800 EUR (approx. 2.5 MSEK)

Stockholm, 25 April 2022 – Kebni announces today that they have received an order for multiple inertial measurement units (IMU) from a leading mining industry. The total order value amounts to approx. 2.5 MSEK and deliveries will be finalized by the end of 2023.

Kebni's inertial sensing units play a key role for navigation and system safety on the customer's product range of underground vehicles, where they are installed as a vital subsystem on every autonomous vehicle.

"We're proud to deliver safety critical equipment to industry leaders, and to help both them and their clients increase value creation through intelligent systems and automation. This follow-up order is the largest to date with this client – verifying we're strengthening existing relationships and creating customer value at increasing speed." – Erik Winther, Head of Sales
