

Lund 23rd of June 2022

BeammWave has been approved as an ETSI member

BeammWave AB is now an ETSI member, after being approved via the member online application poll which was held from 1 to 21 June 2022.

"This is another significant step for BeammWave taking part as a contributing member to the important ICT work of ETSI", says Stefan Svedberg, CEO of BeammWave.

"Our first contributions will be within the 3GPP framework, but we recognize ETSI's role in Europe and globally and will participate in several other important initiatives as well", says Joakim Axmon, Senior Expert - Systems and Standards at BeammWave.

About ETSI

ETSI (European Telecommunications Standards Institute) is an independent, not-for-profit, standardization organization in the field of information and communications. ETSI supports the development and testing of global technical standards for ICT-enabled systems, applications, and services. ETSI counts more than 900 member organizations worldwide, drawn from over 60 countries and five continents. Members comprise a diversified pool of large and small private companies, research entities, academia, government, and public organizations.
