

Press release, May 10, 2021

Azelio's largest shareholder, Blue Marlin AB, withdraws proposal for long-term incentive program for the Board with the intention of extending the term of the program

The Board of Directors of Azelio AB (publ) has been informed by Blue Marlin AB, the company's largest shareholder, that the proposal for a long-term incentive program is being withdrawn. The purpose is to extend the term of the program so that it does not coincide with the end date of the management's incentive program. The proposal was to be considered at the Annual General Meeting on May 11, 2021. Blue Marlin AB has announced that they intend to return shortly with a new proposal for the Board's incentive program with a similar meaning and a new end date, which will be handled at an Extraordinary General Meeting.
