

## **Måsøval AS cancels its acquisition of production capacity (MAB) following resource tax proposal**

5.10.2022 19:41:54 CEST | Måsøval AS | Additional regulated information required to be disclosed under the laws of a member state

The Norwegian governments proposal to introduce a resource tax on production of salmon in Norway of 40% is a special tax on aquaculture companies that today create value and employment in many small coastal societies in Norway.

In the light of this, Måsøval has decided to cancel its acquisition of 116 tonnes MAB in production area 6.

The company will untill further notice postpone planned investments in excess of MNOK 1,000.

This will have significant negative repercussions for our suppliers and the coastal societies where we operate our business.
