

## Måsøval AS Aqua Semi - Development licenses

3.11.2022 10:47:31 CET | Måsøval AS | Non-regulatory press releases

In 2019 Måsøval received 4 development licenses to develop the concept Aqua Semi. Aqua Semi is designed to open up new areas for salmon farming, reduce lice and disease contagion and improve fish health..

The pre-project is now finalised and the unit is ready to be built.

The governments proposed resource tax on aquaculture represent an unacceptable risk for the project. Måsøval AS has therefore decided to postpone a decision to start the project,

The company regrets the consequences this will have for the projects suppliers.

### About Måsøval AS

Måsøval is an integrated producer of Atlantic salmon with more than 50 years of operational experience. Located in Central Norway in the region west of Trondheim, Måsøval has both significant farming operations at sea and inhouse smolt production. Through its majority ownership in the processing and distribution company Pure Norwegian Seafood AS, Måsøval is processing and exporting high quality Atlantic salmon to a global marketplace.
