

## **Enersense delivers high-power charging stations to Vocational Education Centre in the Jokilaaksot region**

Enersense International Plc  
Press release 13 June 2023 at 2:05 p.m.

Enersense Charging Oy, a manufacturer of high-power charging stations for electric vehicles, has won the delivery of electric vehicle charging stations to Vocational Education Centre JEDU in a public procurement tendering.

Two 160 kW high-power charging stations will be delivered to the Vocational Education Centre in the Jokilaaksot region, for example for charging electric trucks and vans, as well as for training projects.

“Interest in our new high-power charging station has been great. Due to its high-performance, the station is suitable for a wide range of charging and a wide range of customers, of which this agreement is also a good example,” says Eero Korhonen, Sales Manager for Electric Vehicle Charging Solutions at Enersense.

JEDU, a Vocational Education Centre, offers vocational training in the sub-regions of Siikalatva, Ylivieska, Nivala and Haapajärvi.
