

The name of Megatuuli Oy changes to Enersense Wind Oy

Enersense International Plc
Press release 6 March 2023 at 2:00p.m.

Megatuuli Oy, an onshore wind power developer, owned by Enersense International Plc, a provider of zero-emission energy solutions, changes its name to Enersense Wind Oy.

The name change is part of the integration process and harmonisation of the names of Enersense's subsidiaries. Enersense acquired Megatuuli on 1 February 2022.

The name change will not have an effect on the company's business identity code, it will remain the same.

“Enersense has a lot of competence in wind power project development, design, construction, and maintenance. Under the common Enersense brand, I believe that we will be able to promote our green transition goals more fully and broadly,” says Lauri Lammivaara, Vice President, Wind Power Development at Enersense.
